XIZI INTERNATIONAL (HANGZHOU) CO., LTD

- Add/NO.2329 Science and Technology Av.,
Lin'an Economic Development
- Zone, Hangzhou, China
-

This book is a publication of general information, and we reserve the right to alter the techniques and specifications of the products at any moment.
Regardless of their literary meaning or implications, no liabilities shall be undertaken for any words and sentences about applications and qualities of
any products in this brochure, or for definitions and alterations of any articles and clauses in the purchase and sales agreements.

XIZI
XIZI INTERNATIONAL CORPORATION

PASSENGER ELEVATOR

Leading equipment manufacturing company

Top 500 Chinese Company

Company Profile:

TOTAL ASSETS IN 2016: 5.5BILLION USD

Number of employees:10 thousand

Headquartered in Hangzhou,China

THE DEVELOPMENT
PROCESS OF THE
COMPANY

2014
Grand open of XIZI
Industry park

2004
Set Zhejiang XIZI
Forvorda Electrical
Machinery co., Ltd

1997
Set joint venture
"Hangzhou Xizi Otis Co., Ltd"

1993
First elevator export
to vietnam

1981
Set up "Hangzhou XIZI
elevator factory"

PASSENGER ELEVATOR E5 SERIES

With development of modern city, more and more high-end places are high-rise or multi-storey design with luxurious environment, and higher requirements are provided for elevator. Improve passenger's sensorial experience and bring up-and-down movement with comfort, technology and safety.

MR Specification

Speed range	1.0m/s~4m/s
Load range	630kg~1600kg
Traction Machine	GETM
Door operator	Jarless-con
Controller	SC1000
Door protection	Light curtains

MRL Specification

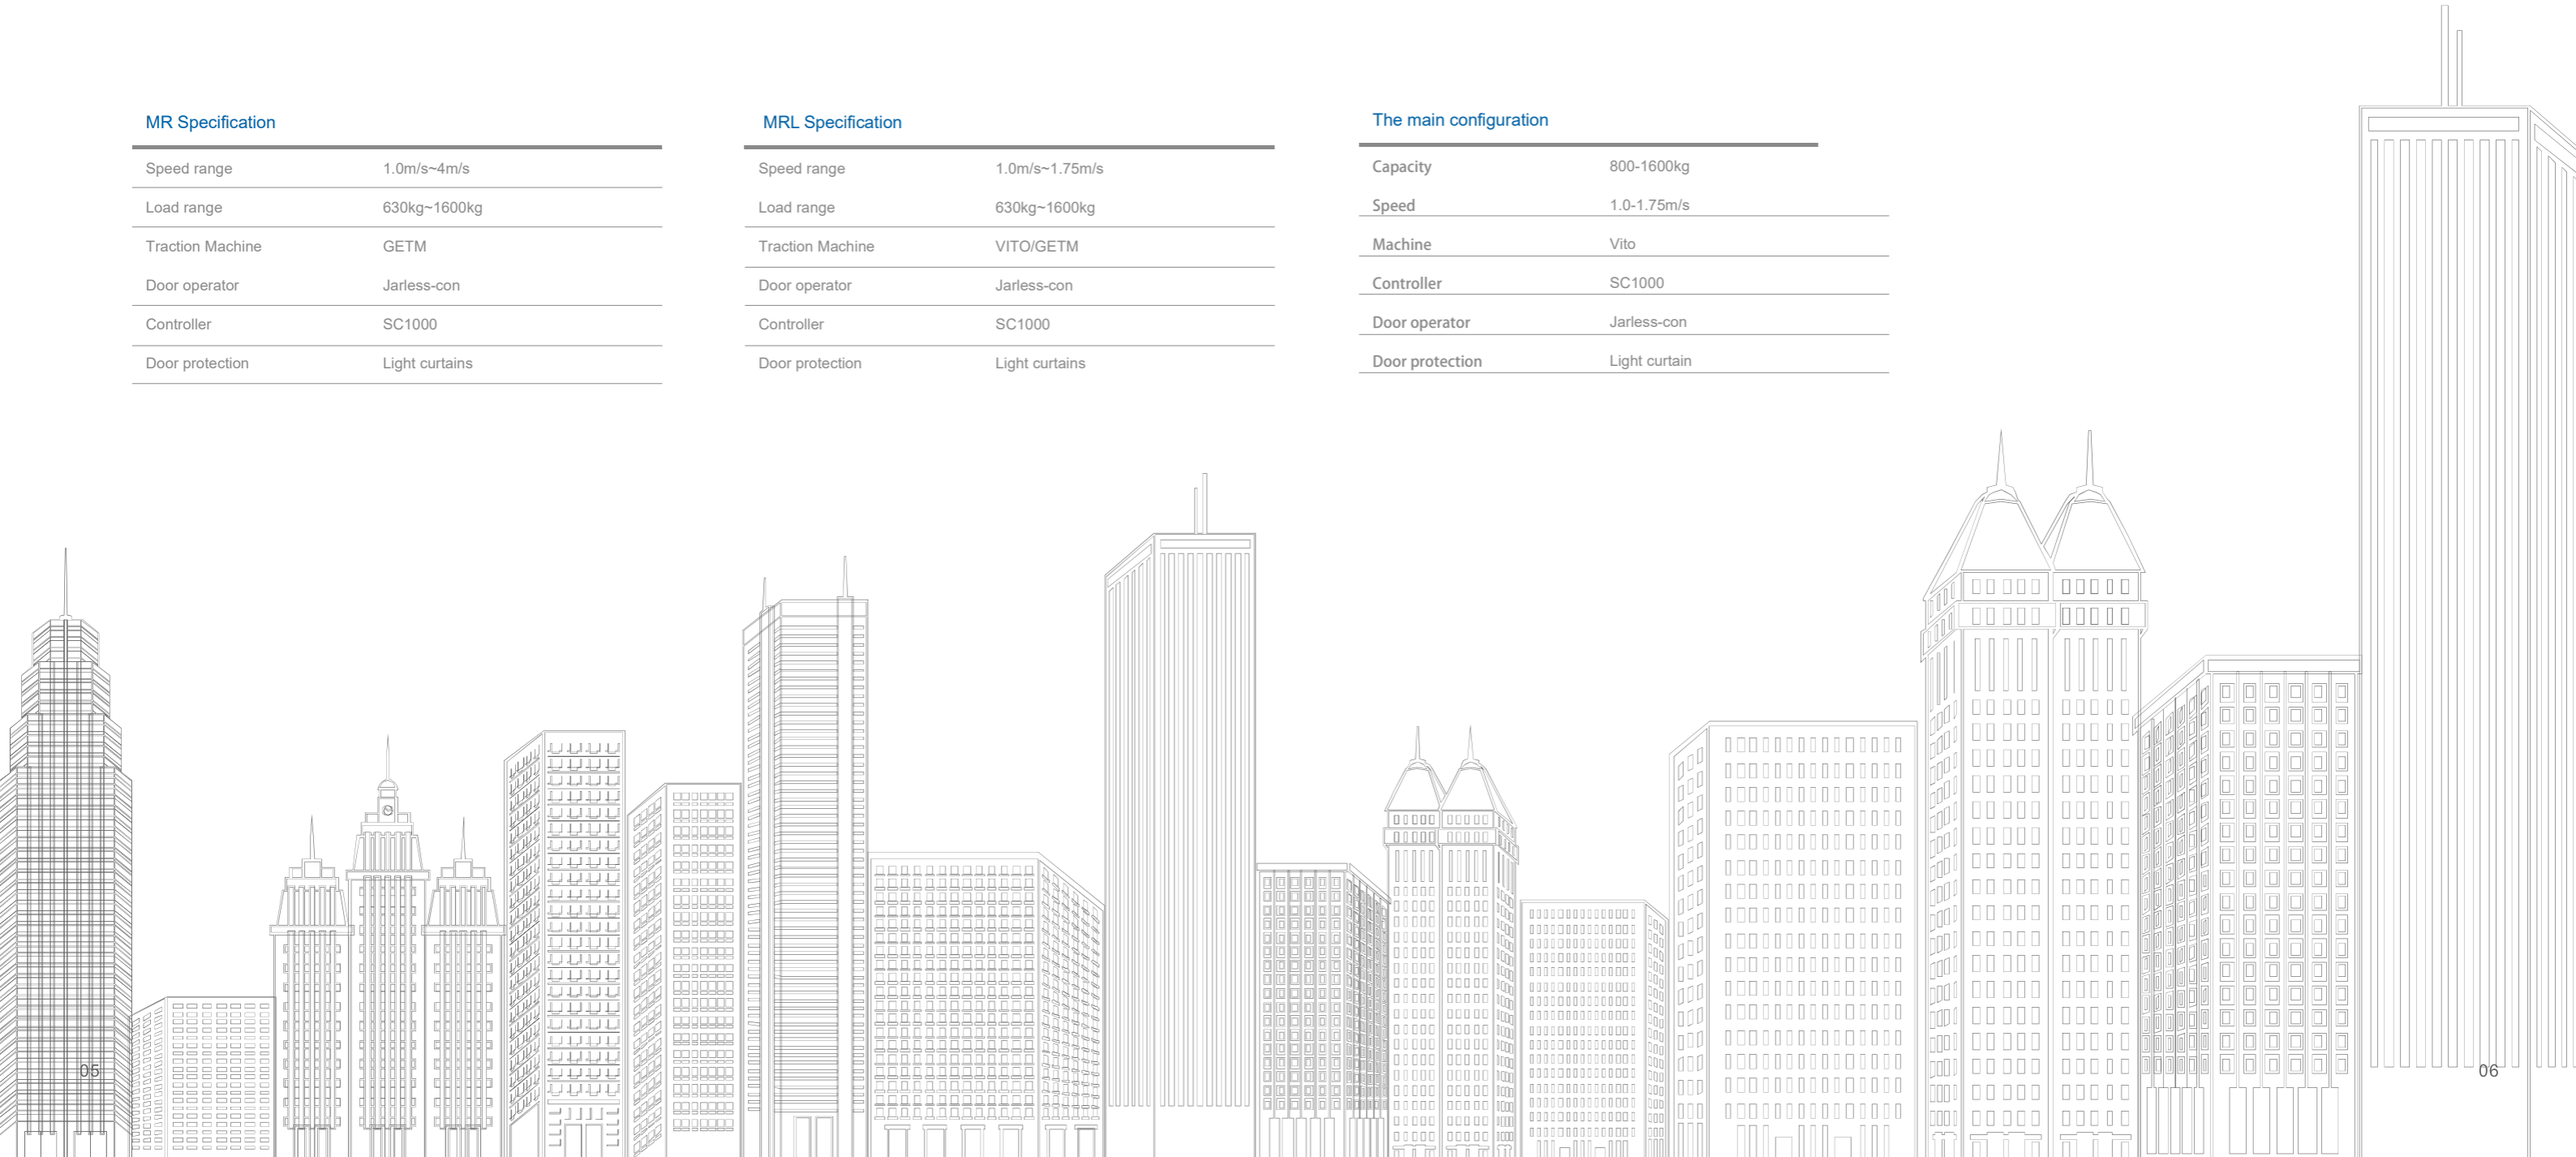

Speed range	1.0m/s~1.75m/s
Load range	630kg~1600kg
Traction Machine	VITO/GETM
Door operator	Jarless-con
Controller	SC1000
Door protection	Light curtains

PANORAMIC ELEVATOR E5 SERIES

The perfect integration between passenger lift and panoramic lift has finished the last stroke of modern buildings, representing the perfect union of artificial intelligence. In the space fluctuating up and down, we can enjoy the architectural picture, feeling the comfort and pleasure brought by the modern facilities. It could be widely applied in different kinds of public places, such as super market, station, port, airport, shopping center, recreation center and exhibition hall, etc.

The main configuration

Capacity	800-1600kg
Speed	1.0-1.75m/s
Machine	Vito
Controller	SC1000
Door operator	Jarless-con
Door protection	Light curtain

ENERGY SAVING MACHINE

SAFE, RELIABLE, ENERGY-SAVING, ECO-FRIENDLY

Permanent magnetic synchronous traction machine using rare-earth material without traditional gearbox. Powerful drive, reliable brake, excellent performance creates conversion efficiency as high as 40%.

HIGH-PRECISION ENCODER

Adopting Heidenhain rotary encoder achieving high-precision control keeps elevator running under perfect speed curve and ensures comfortable running experiences.

QUIET BRAKE

Adopting quiet brake reduces 5-10 (dB)A noise, makes it a stable, high-security quiet machine.

PREMIUM MAGNETIC STEEL

Self-developed magnetic steel: mature technology, steady structure, thermostable up to 180°C degree, maintaining permanent magnetic up to 30 years.

INDEPENDENT R&D INDEPENDENT MANUFACTURE ORIGINAL FACTORY ORIGINAL BRAND

SAFETY DOOR

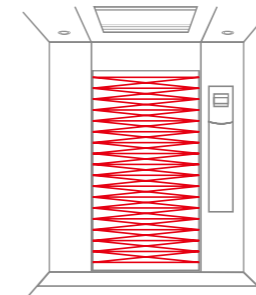

INDEPENPENT R&D INDEPENPENT MANUFACTURE ORIGINAL FACTORY ORIGINAL BRAND

SAFE & INTIMATE CARE

Door operator with permanent magnet technology, VF control combined with synchronous belt transmission, stable operation, high efficiency, With independent intellectual property rights, self design and manufacture, identified by elevator expert committee, reached the international advance level.

WATERPROOF LIGHT CURTAIN

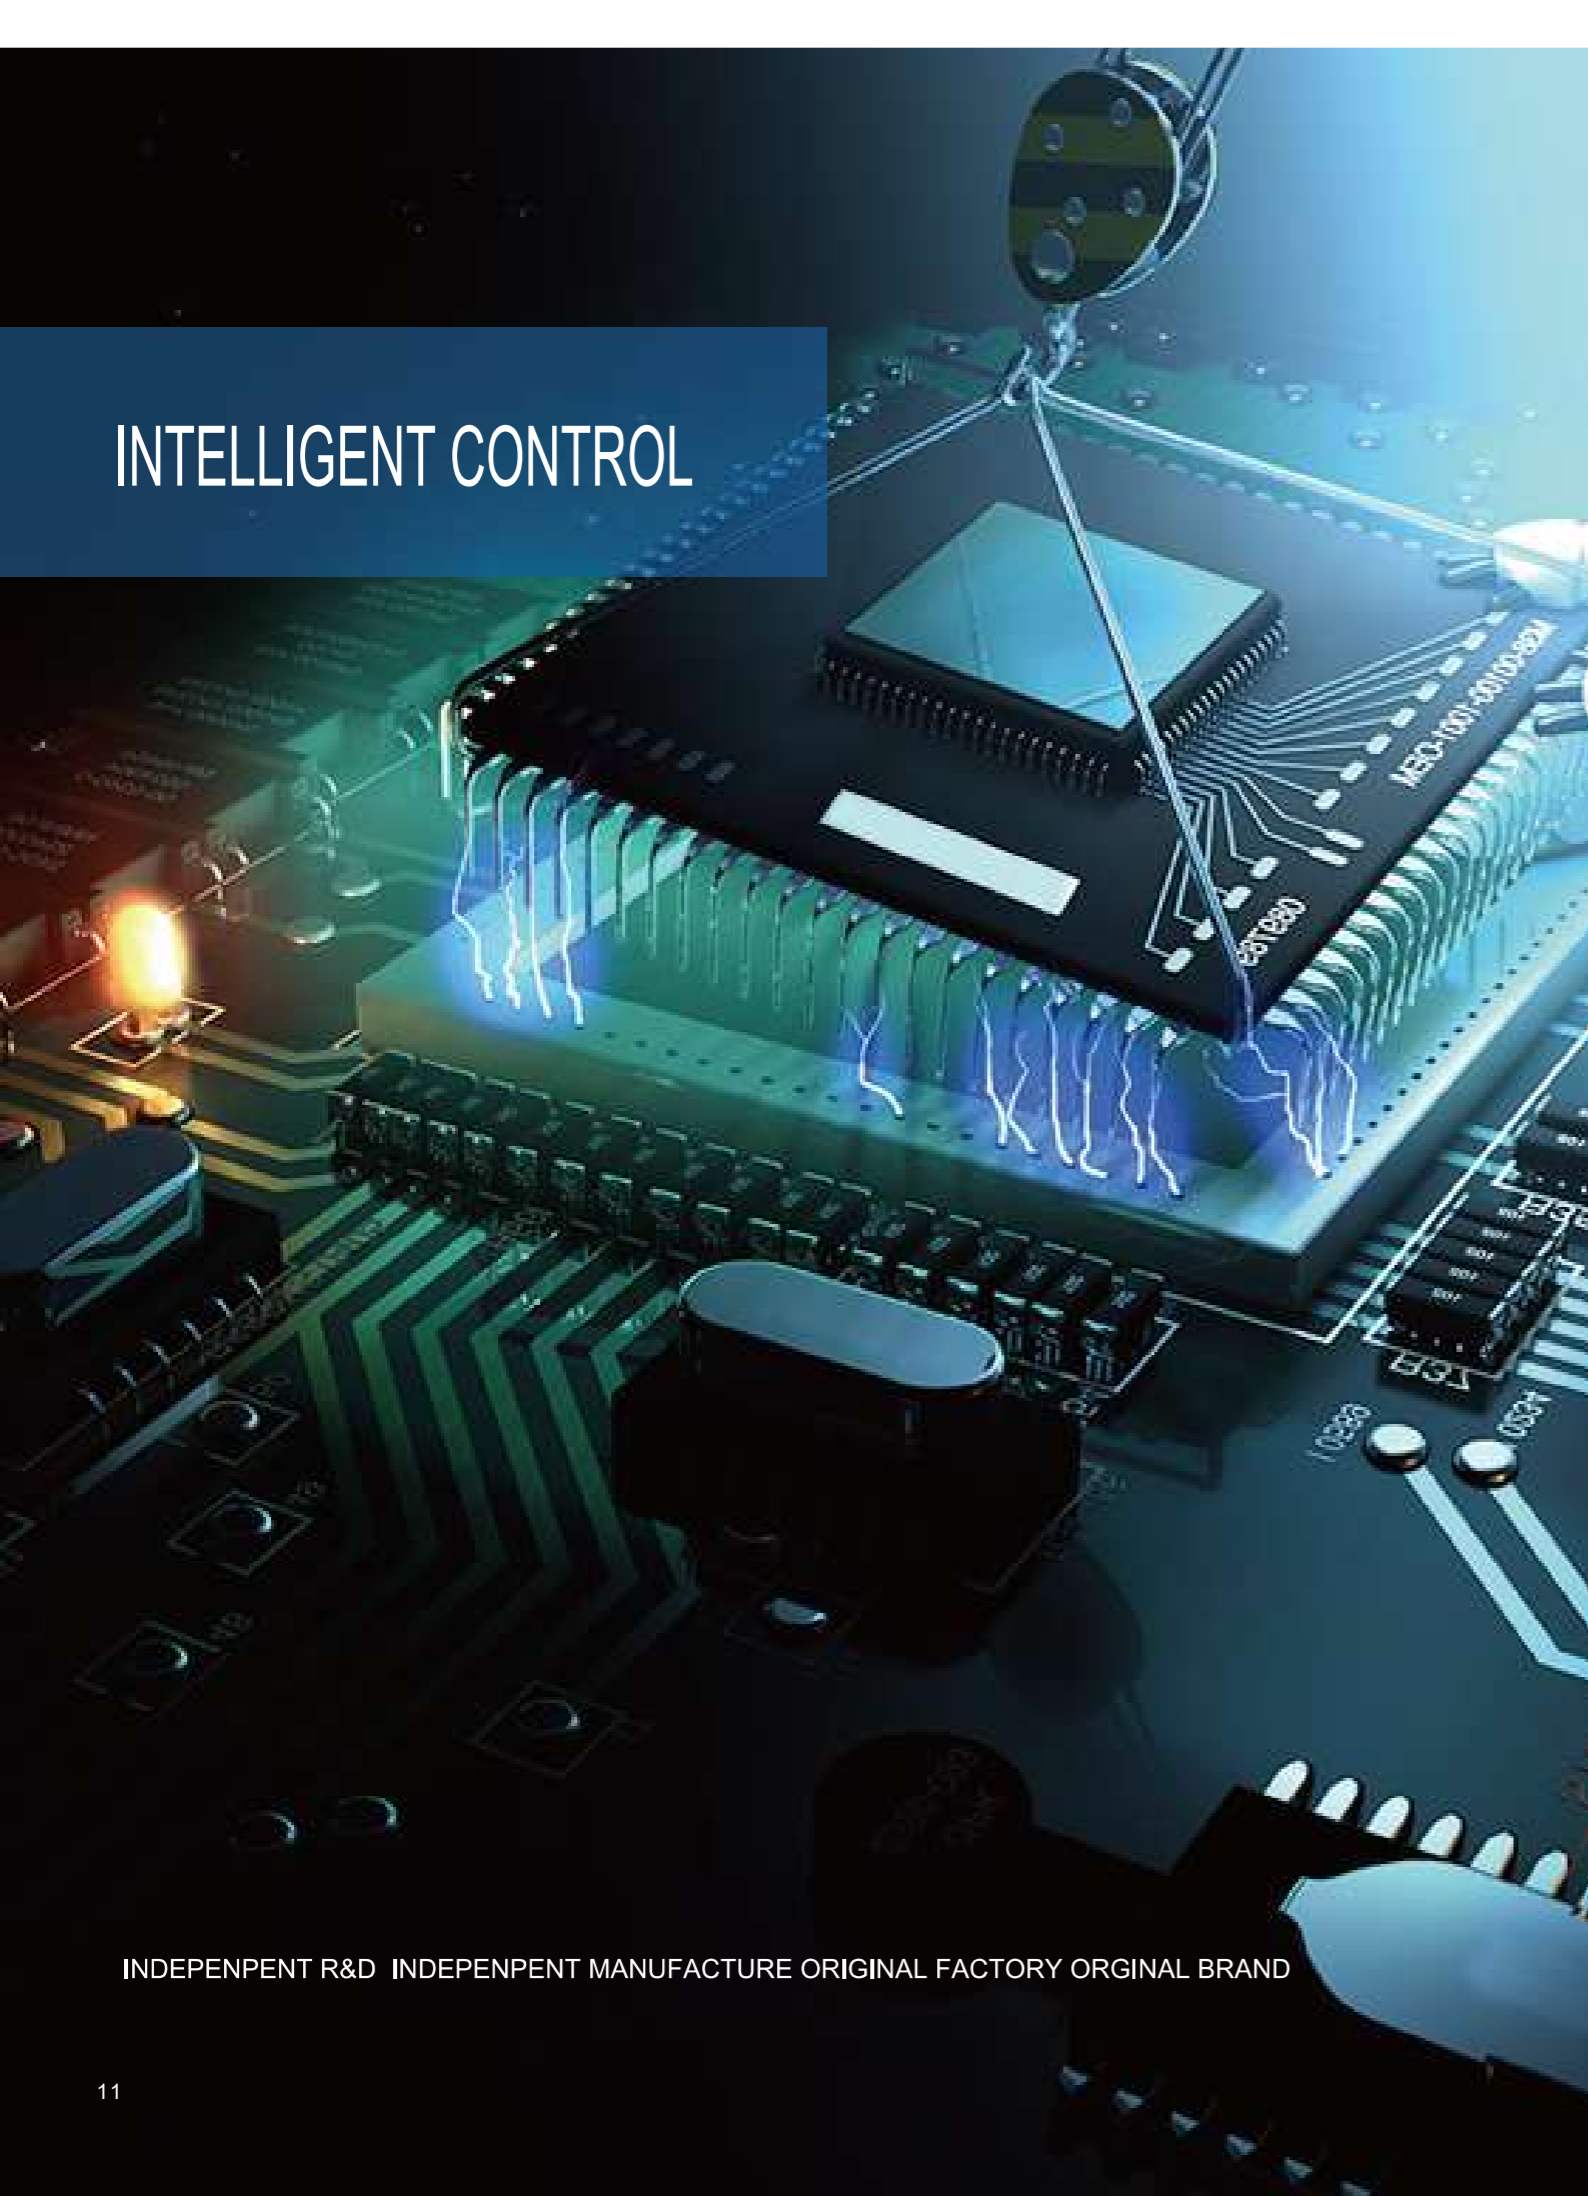

Light curtain's waterproof class IP65, the beam quantity up to 154 above, strong anti-interference performance, Closing without blind spots, to ensure passenger's safety.

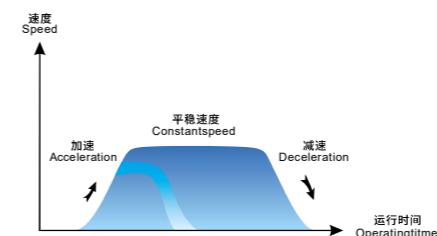

UCMP

When the elevator is in leveling and the door is open, elevator detects unexpected move, UCMP security device immediately start protection, stop the elevator.

INTELLIGENT CONTROL

INDEPENPENT R&D INDEPENPENT MANUFACTURE ORIGINAL FACTORY ORGINAL BRAND

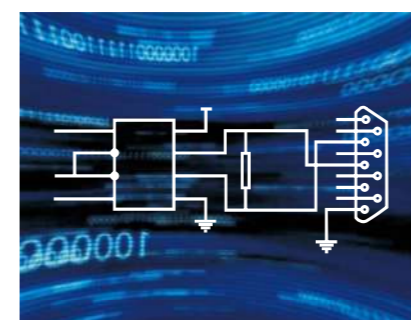

PRECISE CONTROL, COMFORT RUNNING

VVVF drive control and dual 32-bit CPU closed-loop vector control technology, automatically generating optimal speed curve according to human physiology, which can make acceleration, deceleration and braking more smoothly, provide a more comfortable running.

ACCURTE LEVELING

Intelligent control system can self learning the operation data and shaft parameters, and automatically get ideal operation comfort and efficiency, also ensure the leveling optimum accuracy ± 5 mm.

EFFICIENT OPERATION

Using advanced modular software and serial communication technology, making elevator control more reliable and efficiency, greatly shorten passenger waiting time, effectively reduce the elevator accident by communication fault.

TECH-CONVENIENCE

VOICE CALM

Auto playing a voice when elevator emergency stop by fault, let the passenger calm down and waiting for rescue. Extra voice reminding during the running, guide the passenger safety loading.

REMOTE MONITORING SYSTEM (OPTIONAL)

The monitoring center will collect the running status of remote elevator in real time by network communication, and auto-statistics, analysis, record each running data, to realize remote monitoring and guarantee the safety of elevator.

RFID REMOTE FLOOR CONTROL SYSTEM (OPTIONAL)

Lift control system verifies and recognises owners in the hall. Proper lifts are assigned to pick them up with destination floor car call already registered, no need to swipe any cards or push any buttons.

VIP PRIVATE SERVICE (OPTIONAL)

Intelligent VIP information system, keep private and safety service for VIP.
